

# FT45

The **FT45** from Younger Optics offers a great alternative for the “executive” across-the-lens multi-segment.

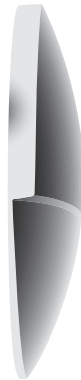

### **Benefit to Lab:**

Easier to process, coat and mount  
Excellent add range

### **Patient Fitting:**

Child bifocal; prism segment, strabismus

**Benefit to Wearer:** a thinner, more attractive lens that fits nicely into more frames

**EXECUTIVE**  
ACROSS THE LENS

Thick at top,  
causing lens  
to protrude  
from frame

**FT45**  
WIDE-SEGMENT

Thinner  
edges fit  
nicely in  
more frames

## Material

Hard Resin

## Base Curves

4, 6, 8

## Prescription Range

-5.00D to +6.00D

## Add Range

0.75 to 3.00
